In Salt Lake.....\$4.00 per ton

**LOCAL BRIEFS.**  
THERE will be a grand celebration on the 24th at Nephi.  
REMOVALS are being made to the establishment of another Democratic paper.  
WELLS, FARGO & Co's shipments yesterday amounted to: Base bullion, \$3,400.  
HELD'S BAND celebrated its first anniversary last evening, in a very pleasant manner.  
IN THE Police Court, yesterday, O. B. Rossmore pleaded guilty to getting full and was fined \$10.  
A. H. MARTIN, the slayer of John Barton, was brought down from the Penitentiary yesterday, to consult with his attorney.  
TWO CASES of diphtheria are reported in the family of Mrs. Squires, who lives on Sixth South Street, near the eastern end of the city.  
THE PLAINTIFF in the case of William Noyce vs. R. Dye, obtained judgment in Justice Barton's court, Monday, for \$5.50 and costs.  
"THE BACKBONE of winter's broke by this time," said the bed-cornet loafer, yesterday, as he wiped the perspiration from his noble brow.  
JUDGMENT for plaintiff, in the sum of \$3.40, was rendered by the justice of the Second Precinct, yesterday, in the case of W. S. McCormick vs. H. Chandler.  
THE KARRICK building, near the Walker House, is fast assuming a pleasing appearance to the eye. The front will, when finished, be very unique.  
AT the residence of B. A. M. Froelich, Sixth South Street, between East and West Temple, a yellow flag warns citizens of the presence of scarlet fever there.  
THE Co-op. Wagon and Machine Company will close all their departments to-day, at 3 o'clock p.m., in order to give their employees a chance to take a dip in the lake.  
THERE was no business in the Third District Court yesterday, the only semblance of judicial inquiry was the case before Judge Sprague as referee, of Birchell vs. Hoyt.  
A COUPLE against whom the charge of lewd conduct was booked were in jail yesterday, awaiting the action of the court. Their names were James Manning and Mary Smith.  
IT is an easy thing to denounce anything. It is the man who has something better as a substitute that catches on to Popularity's feeling tail.—*Ex.*  
Respectfully submitted to the anti-state hewers.  
C. O. WHITTEMORE, the attorney, is author for the statement that there are five times as many applications for divorce during the months of July and August, than for the whole remaining period of the year.  
THE OPERA HOUSE Band serenaded the U. P. officials and gentlemen of the investigating committee, at the Walker House, last evening. The resources and advantages of Utah were highly complimented in the speeches which followed.  
SOME MEAN scamps entered the new building being erected by Mr. Olesby, on Third South, between Third and Fourth East, on Sunday last, and maliciously destroyed a large strip of plastering in one of the rooms.  
BAD LIQUOR got the best of a Twelfth Ward named Evans, last night, and caused him to make unbecomingly and unattractive demonstrations to the disturbance of some of his neighbors, when the police were summoned and the offender was locked up for the night.  
THE REPUTABLE Maine Showell and unrecognizable Mrs. Charles created one of their semi-occasional disturbances of the peace last night, shortly before the witching hour of 12, and were consigned to an apartment in the Hotel de Solomon to sober up.  
WHILE the poor people of the east are sweltering and sickening with the mercury sizzling around the 100 mark, the citizens of Salt Lake are to be congratulated on the even range of the thermometer so far this summer. Yesterday the maximum was 84.  
ANOTHER CHILD of James and Jennie Lee, of the Seventh Ward, has taken diphtheria. It is not of a malignant form, however, and the prospect for the recovery of the little one is said to be good. Mrs. Lee's mother, Mrs. Palmer, who has assisted in taking care of the little one previously attacked, also fell a victim to the disease, but is now rapidly recovering.  
THE DEPUTIES have been busy recently in Box Elder County, and as a result of their exertions four persons have been taken before Commissioner Carrington, on the charge of unlawful cohabitation, and placed under \$1,000 bonds. They are James Ipson, of Mantua, G. F. Hampton, James Bywater and Peter Longren, of Brigham City. Estella Box, a witness in the case of E. A. Box, was also captured and held in \$200 bonds.

**AT ALL SEASONS.**  
At the "Occidental" the beverages are prepared, whether in the winter, during summer or fall, are delicious, pure and superior. Full stock of spirituous, vinous and fermented liquors and choice cigars. Family trade a specialty. *Adams & Morgan, Proprietors.*  
**Notice**  
to the trustees of district schools of Salt Lake City and County. The new Bancroft Readers are now ready to be exchanged for the Independent Readers only, which have been in use in the district schools of Utah. We are now ready to commence the work of exchanging and the introduction of the new books at Dwyer's Bookstore. For further information call at Dwyer's.

**THE NEW COUNTY JAIL**  
Work On It to be Begun Immediately.  
THE EXCAVATION COMMENCED.  
A Brief Description of the Proposed Cage for Law Breakers, Soon to be Erected.  
Yesterday morning, men and teams commenced the work of excavating on the lot next east of the County Court House, for the foundation of the new County Jail. The ground was, until recently purchased by the County, the property of Mrs. Weinle, and the deeds for the transfer were perfected on Monday. The preparatory work of tearing down a portion of the lady's late residence and digging and hauling is in charge of the sub-contractor for the mason work, Mr. Bonnerud.  
The edifice which will shortly be erected on the spot indicated, will be a fine one in every respect, an ornament to that part of the city, a safe place of confinement for law breakers, and a credit to the gentlemen who have had the matter of the selection of the plan and contracting for its erection in charge.  
In accordance with the proposals for building and finishing the jail about to be built, the contract for the entire job, from the excavating for the foundation to handing the keys over to the jailor, was awarded to the Salt Lake Building and Manufacturing Company, which is composed of Messrs. H. J. Hayward, James and John Wardrobe, H. A. Woolley and Oliver Hodgson, in whose possession are the plans and specifications now are. A HERALD reporter yesterday was shown the drawings of the front and side elevations and of the several floors, and was struck with the arrangement and completeness of the cells, rooms, corridors and hallways, both for the comfort and convenience of the jailor and his family and the accommodation and well-being of prisoners who may be confined within the walls.  
The exterior measurement of the building proper is 43x94 feet; the south front, which is of a nondescript architecture and will have the appearance of a mixtures of schoolhouse, chapel and church, will be of two full stories, with a central tower, in which will be a room 11 feet high, and above that, a small room, 7x7 feet square by 8 feet 6 inches high, and will aid in forming a neat appearance. The total height of the front, from the ground to the vane will be 75 feet.  
The residence part of the building will be located in the south end—the front—and will consist of three airy rooms and hallways, with 11-foot ceilings downstairs, and three and a half upstairs, with 10-foot ceilings, and will include bathroom and closet.  
There will be a basement under two-thirds of the building.  
The jail portion of the structure will also be two stories, but the ceilings will not be so high as those of the residence part, being but eight feet in the clear. On the first floor will be ten steel rotary cells, with corridors for the exercise of prisoners, and above these ten iron cells, also rotary, and, besides, misdemeanor cell, juvenile cell and hospital room, all of them lined with iron and steel. For the convenience of those incarcerated, there are to be water closets in all the rotary cells. In addition to the cells and rooms mentioned, there will also be a jailor's office, sheriff's office, two female cells, two insane cells, two exercise rooms and bath cell.  
The interior will be heated by steam, the Haxton improved boiler and radiators being used, and the apparatus will be sufficiently large to raise the temperature on the interior to 80 degrees, even when the mercury is down to 20 on the outside. The inside finish of the residence division of the building will be modern, Eastlake style, beaded work, with carved corners, centre and base blocks, oiled and polished. The jail section, besides being supplied with all modern appliances for the benefit of prisoners, will be thoroughly fireproof, all the various cells, rooms and corridors being lined with iron and steel; in fact, the entire structure will be fireproof. Outside, the windows are to be protected with iron bars securely built in the wall. The roof, constructed of Oregon pine, will be covered with tin. The front will be a neat and imposing one, the rock foundation being 8 feet in height in the clear, and Ogden pressed brick forming the greater part of the material used in the exterior wall, with Sanpete stone trimmings for sills, pilasters and arches, all combining to give an effect which will be both pleasing to the eye and of lasting endurance.  
As before remarked, the Salt Lake Building and Manufacturing Company has secured the contract for all the work necessary for the completion of the new building, and will do all the carpenter work themselves, but sublet the contracts for the masonry, plumbing, painting and plastering. The estimated cost of the whole, when finished, is about \$40,000, that is, about \$15,000 for the work and material and \$25,000 for the iron and steel work.

**A GENERAL DESCRIPTION.**  
The cell structure proper is circular, in two tiers, each divided into ten cells, the partitions radiating from a common centre, leaving a central ventilating space eight feet in diameter. The cells are riveted and put together, forming a continuous body. In the centre of the ventilating space a stationary, hollow, cast-iron stack or shaft is placed, having secured at proper height an adjustable shoulder and hub, which receives the carrying angle iron and stay rods for cells, and likewise, contain the conical rollers for rotation of cells. The angle bars are attached to the cells and extend over the open space to the top of the hub, and are there bolted, and stay rods, with adjustable sleeve nuts, are secured to bearing irons near the hub, and extend down to the rear of the cell partitions, being there spliced and riveted to the cells.  
The ventilating space contains a complete scientific system of water supply and sewer drainage.  
The rotating of the cells is done by a perfect system of shafts or gears, operated or controlled from the jailor's office, where the rotating machinery is locked and secured into a hollow jamb adjoining the main entrance to the vestibule.

**THE CITY COUNCIL.**  
The Rate of Taxation Placed at Five Mills.  
TEN-DAY THREAT FROM SANDY.  
The Usual Grist of Petitions and Reports Ground Out—Nothing About the Bath House.  
The City Council did not meet last evening at the usual hour. Mayor Armstrong was promptly on hand, and Alderman Cope was closely engaged when the hour struck; later a few members came in, but not sufficient to constitute a quorum, but after a few minutes waiting, Judge Pyper and Councilor Davis strolled in, thus making the legal number for the transaction of business.  
C. O. Whittemore called the attention of the Council to a petition of the residents of Second South Street, dated March 24, 1886, applying for an extension of the water mains to Sixth South Street, and asked that, as there was sufficient pressure in the mains, the pipes be changed to three-inch. Referred to the committee on water works.  
Heber Young asked the privilege of piling building material on the street and sidewalk on North First East for a period of four months. Granted under the usual restrictions.  
John H. Schaeffer asked the privilege of having a one-half inch pipe along South Temple Street to his residence. Referred to the committee on water works.  
John Hardcastle and twelve other residents of Sandy, in a communication, set forth that some time ago they petitioned the Council for redress from the seepage of the canal, but that no attention had been paid to their appeal, and the letter closed by saying that, unless some action satisfactory was taken by the Council within ten days, legal steps would be taken in the matter by the petitioners. Referred to the committee on Jordan and Salt Lake City Canal.  
James Hegney, California Wine Co. and J. H. Van Horn, were granted retail liquor licenses.  
**REPORTS.**  
The committee on streets and alleys, to whom had been referred the petition of A. Miner, reported as follows:  
Your committee, to whom was referred the petition of A. Miner, representing that, for certain reasons set forth in the petition, it is necessary to flume a portion of the water ditch in front of his property on West and North Temple Streets, and offering to pay for one-half of the lumber, reported that they had carefully considered the matter, and were of the opinion that a portion of the work should be done. They therefore, recommended that the watermaster be instructed to have the water ditch flumed from the corner of West and North Temple Streets, on the conditions proposed by the petitioner. The committee on finance submitted the following:  
SALT LAKE CITY, July 19th, 1887.  
The Hon. the Mayor and City Council of Salt Lake City:  
Gentlemen:—The committee on finance, to whom was referred the assessment roll for the current year, and the proposed communication from the City Assessor and Collector, calling attention to the several provisions of an "Ordinance to provide for assessing and collecting city taxes," respectfully report as follows:  
Having given the subject careful consideration, the committee, in accordance with the provisions of the ordinance referred to, recommend that the per cent of taxation for the year 1887 be fixed at five mills on the dollar, appropriated in the following manner: Two mills to defray contingent expenses of the city; two mills to improve and keep in repair the streets of the city, and one mill to control and distribute the water of the city, making in all a tax of five mills on the dollar, as above.  
The compensation of the City Assessor and Collector for the current year we recommend be fixed at \$2,000, and that this Council sit as a Board of Equalization to hear and determine all complaints as to the assessed value of property, and to consider petitions for remittance of taxes from persons entitled by law to such remittance, on Tuesday, August 22nd, at 4 o'clock p.m., and that the City Recorder be instructed to publish the customary notice, calling attention to the fact in some one or more newspapers having general circulation in the city.  
Report adopted.  
The committee on irrigation, to whom had been referred the petition of Thomas Fenton, asking that he be allowed \$50 for making a ditch to convey water to his own grounds, reported adversely.  
The committee on police to whom was referred the Marshal's report for June, reported they had found it correct. Approved.  
**APPROPRIATIONS**  
were made as follows:  
Watermaster's fund.....\$1,000  
Canal fund.....500  
Liberty Park fund.....500  
Adjourned till Tuesday next.  
For all kinds of plumbing, steam and gas fitting, go to J. W. FARRELL & Co., 136 Main St., opposite Teasdale's. Telephone No. 136.  
**Wanted.**  
A neat girl as a good plain cook in a small family; no washing or ironing. Apply at 52 E. Third South Street.  
**Notice.**  
We will continue our cost for cash furniture sale until further notice.  
**BARRATT BROS.**  
**Turf Club House and Restaurant.**  
At the Driving Park, now open, under the management of Bechtol & Sands.  
LARGE lot, ten different kinds, 5 to 15 cent cigars, offer at \$30 per 1,000, for few days only, at CULMER'S.  
**Wanted.**  
First-class masons and bricklayers; from \$4 to \$4.50 a day, by A. Nink.  
**BARGAINS** in trimmed millinery and fine straw at Madame Buttons. South of the Postoffice.  
**SHILOH'S CURE** will immediately relieve Croup, Whooping Cough and Bronchitis. For sale at A. C. Smith & Co.'s Drug Store.  
**SHILOH'S CATARRH REMEDY**—A positive cure for Catarrh, Diphtheria and Cancer Mouth. For sale at A. C. Smith & Co.'s Drug Store.

**IN RAILWAY CIRCLES.**  
The Union Pacific Magnates—The Investigating Commission.  
Bishop Sharp, accompanied by Messrs. W. W. Riser, James Sharp, and Le Grande Young, went to Ogden yesterday to meet a party of Union Pacific magnates, who arrived there at 12 o'clock, and after a delay of a few moments came on to this city, where they arrived at 2 p.m. The officials were Charles Francis Adams, president of the Union Pacific, Isaac H. Bromley, assistant president, and C. E. Wartelle, superintendent of the Wyoming division. With them came Governor R. E. Pattison, of Pennsylvania, chairman, and E. Ellery Anderson, of New York City, and David D. Littler, of Illinois, members of the Pacific Investigating Committee. At 4.45 the party of visitors went out to Garfield Beach to take in the sights of this popular resort. President Adams, it is said, expressed himself as much pleased with the resort, and predicts a great future for it. This morning, beginning at 9 o'clock, the Pacific Investigating Committee will take evidence, and it is understood that Bishop Sharp and other prominent railroad men have been served with notices to appear, and tell it all. The inquiry will be held in the Walker House parlors.  
**Notes.**  
THE PAVILION at Garfield Beach is now complete—all save the painting, and will prove to be the pleasantest spot on Garfield Beach.  
A NUMBER of young gentlemen have formed a dancing club and they will give parties in the Garfield Beach Pavilion. The first of the series will be given on August 4th.  
THE UTAH & Nevada Railway Company have erected a large bowery for the use of picnic parties on the south side of their track at Garfield Beach station. It is 48 by 72 feet, and will prove an additional attraction to the many visitors to the popular resort.  
LET US see. Vice-President Potter, of the Union Pacific, promised the members of the Chamber of Commerce, who recently waited upon him for the purpose of discovering the intentions of his company in regard to the "new depot," that an answer as to whether work would be continued or not, would be returned on or before July 15. The limit expired nearly a week ago, and yet the mails and wires are dumb.  
THE QUESTION whether 1,000-mile tickets may be sold to commercial travelers at a lower rate than to ordinary passengers ought to be set at rest immediately, so far as the interstate commerce commission has anything to say about it, says the *Railway Age*. The commission has received the answers of the Chicago & Grand Trunk railway company to complaints from the Michigan Central road and Luther Harrison for selling tickets to commercial travelers at a less rate than is charged the public generally. The Grand Trunk admits selling 1,000-mile tickets to commercial travelers for \$30, and that it refuses to sell them to the public generally for less than \$25. The reasons given for this discrimination are: That under the form of ticket sold to commercial travelers the road is relieved from some part of the liability under which it transports other passengers; that commercial travelers constitute a distinct class of the traveling public, who generally ride short distances at a time and, visiting numerous places along the line of the road, create in the sales they make of goods a large freight traffic for the roads over which they travel. It cannot be denied that there is much weight in this defense, and it is not at all improbable that the commission will give its opinion in favor of the lower rates to those who make a business of traveling.

**ELECTION JUDGES**  
Additional Appointments Made by the Commissioners.  
The following additional appointments were made of election judges, by the Utah Commission yesterday. The first named in each case is the presiding judge:  
**FIFTH COUNTY.**  
Bullion Precinct—D. C. Tate, F. C. Murray, Henry Reese.  
Deer Trail—J. N. Sargent, F. C. Kind, D. A. Giles.  
Junction—Thomas N. Wilson, Charles Morrill, John Morrill.  
Orchard—J. M. Kittleman, James C. Whitaker, James Wiley.  
Wilmut—John Sween, Bart Strong, John D. Wilcox.  
Koonham—Richard Brown, S. Nelson, W. H. M. McCallan, Eliza Goff, John T. Leavenby.  
Thurber—Hyrum B. Huntsman, Isaac Goodwin, A. M. Lyman.  
Teasdale—Samuel Rogers, Frederick F. Noyes, O. W. Allen.  
Kane—John Carroll, John H. Curren, William Bechtol, Henry Leards, John Pollock.  
Graves—E. McDougal, Henry Rich, Eugene Sanford.  
The following changes were also made: Samuel Williams was appointed registrar, and Edward McKenrick, judge of election in place of M. D. Cook, of Brigham precinct.  
A. B. Thompson, vice J. H. Morehead, of Foil No. 2, Fifth Salt Lake City precinct.  
Edwin R. Clate vice A. L. Williams, in Foil No. 2, Second Salt Lake City precinct.  
Israel Spitz vice William Anderson, and Henry L. Duncombe vice David Duncombe, Brigham precinct, Salt Lake County.  
**Don't Fail to Attend**  
The Lake Park Ball to be given on Saturday evening, July 23rd. Trains leave Salt Lake and Ogden at 5.30. Get free transportation at Bayhorns bookstore, Hannaman & Co's, and Muller's general furnishing stores. Tickets for dancing will be sold on trains and at the Park; 50 cents per couple.  
HARRY EDWARDS, Manager.  
**Wanted.**  
A good nurse, to look after a child. References required. Apply to Mrs. M. S. Severance, 76 West Sixth South Street.  
**Lost.**  
A gold locket with a magnifying glass inside, Monday evening, between Franklin Avenue and First North Street. Finder leaving same at this office will be rewarded.  
**Fishing Tackle, Tents,**  
And camping outfits. Guns and tents let by day, week, or month, at EVANS & SPRINGER'S.

**THE CITY COUNCIL.**  
The Rate of Taxation Placed at Five Mills.  
TEN-DAY THREAT FROM SANDY.

**THE NEW COUNTY JAIL**  
Work On It to be Begun Immediately.  
THE EXCAVATION COMMENCED.  
A Brief Description of the Proposed Cage for Law Breakers, Soon to be Erected.  
Yesterday morning, men and teams commenced the work of excavating on the lot next east of the County Court House, for the foundation of the new County Jail. The ground was, until recently purchased by the County, the property of Mrs. Weinle, and the deeds for the transfer were perfected on Monday. The preparatory work of tearing down a portion of the lady's late residence and digging and hauling is in charge of the sub-contractor for the mason work, Mr. Bonnerud.  
The edifice which will shortly be erected on the spot indicated, will be a fine one in every respect, an ornament to that part of the city, a safe place of confinement for law breakers, and a credit to the gentlemen who have had the matter of the selection of the plan and contracting for its erection in charge.  
In accordance with the proposals for building and finishing the jail about to be built, the contract for the entire job, from the excavating for the foundation to handing the keys over to the jailor, was awarded to the Salt Lake Building and Manufacturing Company, which is composed of Messrs. H. J. Hayward, James and John Wardrobe, H. A. Woolley and Oliver Hodgson, in whose possession are the plans and specifications now are. A HERALD reporter yesterday was shown the drawings of the front and side elevations and of the several floors, and was struck with the arrangement and completeness of the cells, rooms, corridors and hallways, both for the comfort and convenience of the jailor and his family and the accommodation and well-being of prisoners who may be confined within the walls.  
The exterior measurement of the building proper is 43x94 feet; the south front, which is of a nondescript architecture and will have the appearance of a mixtures of schoolhouse, chapel and church, will be of two full stories, with a central tower, in which will be a room 11 feet high, and above that, a small room, 7x7 feet square by 8 feet 6 inches high, and will aid in forming a neat appearance. The total height of the front, from the ground to the vane will be 75 feet.  
The residence part of the building will be located in the south end—the front—and will consist of three airy rooms and hallways, with 11-foot ceilings downstairs, and three and a half upstairs, with 10-foot ceilings, and will include bathroom and closet.  
There will be a basement under two-thirds of the building.  
The jail portion of the structure will also be two stories, but the ceilings will not be so high as those of the residence part, being but eight feet in the clear. On the first floor will be ten steel rotary cells, with corridors for the exercise of prisoners, and above these ten iron cells, also rotary, and, besides, misdemeanor cell, juvenile cell and hospital room, all of them lined with iron and steel. For the convenience of those incarcerated, there are to be water closets in all the rotary cells. In addition to the cells and rooms mentioned, there will also be a jailor's office, sheriff's office, two female cells, two insane cells, two exercise rooms and bath cell.  
The interior will be heated by steam, the Haxton improved boiler and radiators being used, and the apparatus will be sufficiently large to raise the temperature on the interior to 80 degrees, even when the mercury is down to 20 on the outside. The inside finish of the residence division of the building will be modern, Eastlake style, beaded work, with carved corners, centre and base blocks, oiled and polished. The jail section, besides being supplied with all modern appliances for the benefit of prisoners, will be thoroughly fireproof, all the various cells, rooms and corridors being lined with iron and steel; in fact, the entire structure will be fireproof. Outside, the windows are to be protected with iron bars securely built in the wall. The roof, constructed of Oregon pine, will be covered with tin. The front will be a neat and imposing one, the rock foundation being 8 feet in height in the clear, and Ogden pressed brick forming the greater part of the material used in the exterior wall, with Sanpete stone trimmings for sills, pilasters and arches, all combining to give an effect which will be both pleasing to the eye and of lasting endurance.  
As before remarked, the Salt Lake Building and Manufacturing Company has secured the contract for all the work necessary for the completion of the new building, and will do all the carpenter work themselves, but sublet the contracts for the masonry, plumbing, painting and plastering. The estimated cost of the whole, when finished, is about \$40,000, that is, about \$15,000 for the work and material and \$25,000 for the iron and steel work.

**THE CITY COUNCIL.**  
The Rate of Taxation Placed at Five Mills.  
TEN-DAY THREAT FROM SANDY.  
The Usual Grist of Petitions and Reports Ground Out—Nothing About the Bath House.  
The City Council did not meet last evening at the usual hour. Mayor Armstrong was promptly on hand, and Alderman Cope was closely engaged when the hour struck; later a few members came in, but not sufficient to constitute a quorum, but after a few minutes waiting, Judge Pyper and Councilor Davis strolled in, thus making the legal number for the transaction of business.  
C. O. Whittemore called the attention of the Council to a petition of the residents of Second South Street, dated March 24, 1886, applying for an extension of the water mains to Sixth South Street, and asked that, as there was sufficient pressure in the mains, the pipes be changed to three-inch. Referred to the committee on water works.  
Heber Young asked the privilege of piling building material on the street and sidewalk on North First East for a period of four months. Granted under the usual restrictions.  
John H. Schaeffer asked the privilege of having a one-half inch pipe along South Temple Street to his residence. Referred to the committee on water works.  
John Hardcastle and twelve other residents of Sandy, in a communication, set forth that some time ago they petitioned the Council for redress from the seepage of the canal, but that no attention had been paid to their appeal, and the letter closed by saying that, unless some action satisfactory was taken by the Council within ten days, legal steps would be taken in the matter by the petitioners. Referred to the committee on Jordan and Salt Lake City Canal.  
James Hegney, California Wine Co. and J. H. Van Horn, were granted retail liquor licenses.  
**REPORTS.**  
The committee on streets and alleys, to whom had been referred the petition of A. Miner, reported as follows:  
Your committee, to whom was referred the petition of A. Miner, representing that, for certain reasons set forth in the petition, it is necessary to flume a portion of the water ditch in front of his property on West and North Temple Streets, and offering to pay for one-half of the lumber, reported that they had carefully considered the matter, and were of the opinion that a portion of the work should be done. They therefore, recommended that the watermaster be instructed to have the water ditch flumed from the corner of West and North Temple Streets, on the conditions proposed by the petitioner. The committee on finance submitted the following:  
SALT LAKE CITY, July 19th, 1887.  
The Hon. the Mayor and City Council of Salt Lake City:  
Gentlemen:—The committee on finance, to whom was referred the assessment roll for the current year, and the proposed communication from the City Assessor and Collector, calling attention to the several provisions of an "Ordinance to provide for assessing and collecting city taxes," respectfully report as follows:  
Having given the subject careful consideration, the committee, in accordance with the provisions of the ordinance referred to, recommend that the per cent of taxation for the year 1887 be fixed at five mills on the dollar, appropriated in the following manner: Two mills to defray contingent expenses of the city; two mills to improve and keep in repair the streets of the city, and one mill to control and distribute the water of the city, making in all a tax of five mills on the dollar, as above.  
The compensation of the City Assessor and Collector for the current year we recommend be fixed at \$2,000, and that this Council sit as a Board of Equalization to hear and determine all complaints as to the assessed value of property, and to consider petitions for remittance of taxes from persons entitled by law to such remittance, on Tuesday, August 22nd, at 4 o'clock p.m., and that the City Recorder be instructed to publish the customary notice, calling attention to the fact in some one or more newspapers having general circulation in the city.  
Report adopted.  
The committee on irrigation, to whom had been referred the petition of Thomas Fenton, asking that he be allowed \$50 for making a ditch to convey water to his own grounds, reported adversely.  
The committee on police to whom was referred the Marshal's report for June, reported they had found it correct. Approved.  
**APPROPRIATIONS**  
were made as follows:  
Watermaster's fund.....\$1,000  
Canal fund.....500  
Liberty Park fund.....500  
Adjourned till Tuesday next.

**IN THE NINTH DISTRICT.**  
The Nomination of John P. Wimmer as Councilor.  
Minutes of a convention of the People's party, held in Springville, Utah County, for the purpose of putting in nomination one Councilman for the Ninth Council District.  
On motion, R. A. Deal was elected temporary chairman, and H. M. Aird temporary secretary.  
Moved and carried that a committee on credentials be appointed by the chair.  
Joseph Hatch, Oscar F. Lyons, Abraham Noe, James Whitehead, Jr., and O. G. Harman were selected as that committee. The committee returning reported the following-named gentlemen entitled to seats in the convention: Joseph Hatch, Oscar F. Lyons, William Buys, Alexander Fortie, John Crook, John Huber, John C. Parcell, John T. Moon, N. C. Murdoch, H. M. Aird, Abram Noe, L. D. Crandall, James E. Hall, James Whitehead, Jr., Alexander Robertson, R. A. Deal, S. P. Curtis, John Tuckett, O. J. Harmon and J. P. Wimmer.  
On motion of Joseph Hatch, the temporary organization was made permanent.  
The convention then proceeded to the nomination of candidates for Councilman.  
Abram Noe put in nomination J. P. Wimmer, of Emery County; William Buys, of Heber, was put in nomination by Joseph Hatch, and N. C. Murdoch by A. Fortie.  
Voting for the respective candidates was carried on by ballot, on motion of Joseph Hatch.  
As there were three nominees for the position, it was moved and carried that the one receiving the least number of votes should be dropped and the other two be balloted for again.  
The chair appointed as tellers, N. C. Murdoch, L. D. Crandall and S. P. Curtis.  
The first ballot resulted in 11 for John P. Wimmer, 4 for William Buys, and 5 for N. C. Murdoch.  
A second ballot for J. P. Wimmer and N. C. Murdoch resulted in a tie vote—10 to 10.  
Another ballot was called for, and, after considerable discussion, resulted in a vote of 14 for J. P. Wimmer and 6 for N. C. Murdoch.  
J. P. Wimmer was then declared duly elected as the nominee of the People's Party for Councilman from the Ninth Council District.  
A motion to make the nomination unanimous was lost by three dissenting votes.  
On motion, the convention adjourned.  
R. A. DEAL, Chairman.  
H. M. AIRD, Secretary.

**PEOPLE'S TICKET.**  
ELECTION  
Monday, August 1st, 1887.  
SALT LAKE COUNTY.  
Selectman.....E. M. WHEELER

Twentieth District.....A. H. LUND, Mount Pleasant.  
Twenty-Second District.....P. T. FARNSWORTH, Beaver.  
Twenty-fourth District.....W. M. F. STEWART, Salt Lake City.  
**SCARCITY OF WATER.**  
No Sprinkling Allowed Between 8 a.m. and 6 p.m. in the Afternoon.  
To the Water Takers:  
The extremely low stage of water in City Creek renders it necessary that special attention be given at this season to the following provisions of the ordinance in relation to water works:  
Sec. 11.—If any water taker shall waste water, or allow it to be wasted by negligence, such as imperfect stops, or valves, or leaky joints or pipes, or allowing tanks to leak or to overflow, or wastefully run the water, or for any other cause, shall be liable to a fine of not less than five dollars for each offense, and the water may be cut off from such water taker, and all payments forfeited, unless such persons shall promptly pay such additional charges as may be imposed by the superintendent.  
Sec. 15.—Sprinklers for lawns, gardens, yards and sidewalks must be used only for the purpose permitted; and no sprinkler shall be used for sprinkling the streets or sidewalks, unless such privilege is paid for according to the regulations for watering the city. No nozzle for sprinkling shall be larger than one-fourth of an inch in diameter, and no spraying shall be allowed except in connection with water service.  
The efficiency of the water service demands that these provisions shall be rigidly enforced. Take notice, and govern yourselves accordingly.  
GEORGE M. OTTINGER,  
Superintendent of Waterworks.

**THE NEW COUNTY JAIL**  
Work On It to be Begun Immediately.  
THE EXCAVATION COMMENCED.  
A Brief Description of the Proposed Cage for Law Breakers, Soon to be Erected.  
Yesterday morning, men and teams commenced the work of excavating on the lot next east of the County Court House, for the foundation of the new County Jail. The ground was, until recently purchased by the County, the property of Mrs. Weinle, and the deeds for the transfer were perfected on Monday. The preparatory work of tearing down a portion of the lady's late residence and digging and hauling is in charge of the sub-contractor for the mason work, Mr. Bonnerud.  
The edifice which will shortly be erected on the spot indicated, will be a fine one in every respect, an ornament to that part of the city, a safe place of confinement for law breakers, and a credit to the gentlemen who have had the matter of the selection of the plan and contracting for its erection in charge.  
In accordance with the proposals for building and finishing the jail about to be built, the contract for the entire job, from the excavating for the foundation to handing the keys over to the jailor, was awarded to the Salt Lake Building and Manufacturing Company, which is composed of Messrs. H. J. Hayward, James and John Wardrobe, H. A. Woolley and Oliver Hodgson, in whose possession are the plans and specifications now are. A HERALD reporter yesterday was shown the drawings of the front and side elevations and of the several floors, and was struck with the arrangement and completeness of the cells, rooms, corridors and hallways, both for the comfort and convenience of the jailor and his family and the accommodation and well-being of prisoners who may be confined within the walls.  
The exterior measurement of the building proper is 43x94 feet; the south front, which is of a nondescript architecture and will have the appearance of a mixtures of schoolhouse, chapel and church, will be of two full stories, with a central tower, in which will be a room 11 feet high, and above that, a small room, 7x7 feet square by 8 feet 6 inches high, and will aid in forming a neat appearance. The total height of the front, from the ground to the vane will be 75 feet.  
The residence part of the building will be located in the south end—the front—and will consist of three airy rooms and hallways, with 11-foot ceilings downstairs, and three and a half upstairs, with 10-foot ceilings, and will include bathroom and closet.  
There will be a basement under two-thirds of the building.  
The jail portion of the structure will also be two stories, but the ceilings will not be so high as those of the residence part, being but eight feet in the clear. On the first floor will be ten steel rotary cells, with corridors for the exercise of prisoners, and above these ten iron cells, also rotary, and, besides, misdemeanor cell, juvenile cell and hospital room, all of them lined with iron and steel. For the convenience of those incarcerated, there are to be water closets in all the rotary cells. In addition to the cells and rooms mentioned, there will also be a jailor's office, sheriff's office, two female cells, two insane cells, two exercise rooms and bath cell.  
The interior will be heated by steam, the Haxton improved boiler and radiators being used, and the apparatus will be sufficiently large to raise the temperature on the interior to 80 degrees, even when the mercury is down to 20 on the outside. The inside finish of the residence division of the building will be modern, Eastlake style, beaded work, with carved corners, centre and base blocks, oiled and polished. The jail section, besides being supplied with all modern appliances for the benefit of prisoners, will be thoroughly fireproof, all the various cells, rooms and corridors being lined with iron and steel; in fact, the entire structure will be fireproof. Outside, the windows are to be protected with iron bars securely built in the wall. The roof, constructed of Oregon pine, will be covered with tin. The front will be a neat and imposing one, the rock foundation being 8 feet in height in the clear, and Ogden pressed brick forming the greater part of the material used in the exterior wall, with Sanpete stone trimmings for sills, pil
